## PREFACE

The Senate Appropriations staff is pleased to present the *Annual Fiscal Report*. The report is designed to provide legislators, legislative and departmental staff, and the public with information about the appropriations and budget process that occurred during the 99<sup>th</sup> General Assembly, 2<sup>nd</sup> Regular Session (2018), as well as historical information about fiscal and budget issues for previous years.

The Report is divided into five sections.

Section I, **FY 2019 Statewide Budget Information**, provides a summary of Missouri's \$28.301 billion total operating budget for Fiscal Year (FY) 2019. This section includes the appropriation bill totals for the operating budget and an appropriation veto summary. In addition, this section contains the estimated collections for all funds and General Revenue, a full-time equivalent (FTE) summary by department, and several charts and graphs depicting revenue and appropriation information. Section I also includes a budget process overview and the calendar of floor actions for the FY 2019 appropriation bills.

Section II, **FY 2019 Departmental Budget Information**, provides detailed budget information for each state department, which includes the current fiscal year appropriation amount and the past fiscal year budget and actual expenditure amounts. It also includes the major changes from the previous fiscal year for each state department.

Section III, **Missouri State Finances**, includes information regarding the budget reserve fund and past state revenue collections. In addition, this section provides historical expenditure information on the state's operating and capital improvement budgets. It also contains an analysis of state tax credits, bond indebtedness, and the distribution of gaming, lottery and tobacco settlement revenues.

Section IV, **Legislation**, provides a fiscal impact summary of legislation passed during the 2018 Legislative session. This section includes summaries for Senate Bill 775, Senate Bill 884 and House Bill 2540.

Section V, **Topics of Interest**, provides information about a wide variety of subjects. This section contains information relating to the total state revenue calculation, state rankings, the highway fund cap, state employee pay plan history, capital improvements, maintenance and repair, the foundation formula, higher education, and Medicaid.

We hope that the *Annual Fiscal Report* will provide the reader with a wide range of interesting topics regarding the Missouri state budget and finances. ## **FISCAL YEAR 2019 STATEWIDE BUDGET INFORMATION**

# BUDGET PROCESS OVERVIEW

## STATE OF MISSOURI

---

### **I. Department Budget Preparation**

- A. State agencies prepare budget requests during the summer and fall for the following fiscal year in accordance with guidelines issued by the Office of Administration's (OA) Division of Budget and Planning.
- B. Budget requests are submitted to OA-Budget and Planning by October 1. Copies are also submitted to the legislature at the same time.

### **II. Governor Recommends Executive Budget**

- A. After analysis by OA-Budget and Planning, the Executive Budget is published in mid-January.
- B. Governor gives State of the State and Budget Message to a Joint Session of the Legislature within the first few weeks of the legislative session in January.
- C. Appropriations Bills are introduced by the Chairman of the House Budget Committee.

### **III. House Appropriations Committees Operating Budget Hearings**

- A. After introduction, Appropriations Bills are referred to the House Budget Committee for assignment to the appropriate House Appropriations Committee.
- B. Each House Appropriations Committee (Agriculture, Conservation, Natural Resources, and Economic Development; Education; General Administration; Health, Mental Health, and Social Services; Public Safety, Corrections, Transportation, and Revenue) holds budget hearings in late January or early February for agencies to testify on their budget requests and the Governor's recommendations.

### **IV. House Action on Emergency and Supplemental Appropriations**

- A. House Budget Committee conducts hearings on emergency and supplemental requests for the current year early in the session. Emergency and supplemental appropriations are for unforeseen changes or circumstances in the current fiscal year. The legislature takes action only on the requests recommended by the Governor.
- B. House Budget Committee "marks-up" emergency and supplemental appropriation bills and sends House Committee Substitute bills to the full House for action.

**V. House Appropriations Committee Operating Budget Recommendations**

- A. House Appropriations Committees “mark-up” the operating budgets and staff prepares House Committee Substitutes to reflect the committees’ recommendations.
- B. House Appropriations Committees’ Chairpersons present recommendations to the House Budget Committee.

**VI. House Budget Committee Acts on Operating Budget**

- A. House Budget Committee accepts the House Appropriations Committees’ recommendations, alters the recommendations, or rejects the recommendations with instructions for the House Appropriations Committees to reconsider the proposed budget.
- B. House Committee Substitute bills as approved by the House Budget Committee are sent to the full House of Representatives with a committee recommendation.

**VII. House Floor Action on Operating Budget**

- A. All appropriations bills for the operating budget are brought before the House of Representatives.
- B. House Committee Substitute bills as perfected by the entire House of Representatives are sent to the Senate, usually with approximately one-third of the session remaining.

**VIII. House Action on Capital Budget**

- A. House Budget Committee conducts hearings and “marks-up” the capital budget for recommended House Committee Substitute bills. The capital budget uses a biennial appropriations process for major, multiyear projects. During the second year of the biennium, funding is provided for critical projects not envisioned at the time of the adoption of the biennial budget.
- B. Full House passes House Committee Substitute bills and sends to the Senate.

**IX. Senate Appropriations Committee Operating Budget Hearings**

- A. Senate Appropriations Committee conducts department budget hearings in late January through early March.
- B. Senate Appropriations Committee “marks-up” operating budget, prepares recommendations, and staff prepares summaries of action for presentation to the full Senate.

**X. Senate Appropriations Committee Action**

- A. Senate Appropriations Committee conducts hearings and “marks-up” emergency and supplemental appropriations to prepare Senate Committee Substitute for appropriations bill for emergency and supplemental items.
- B. Senate Appropriations Committee conducts hearings and “marks-up” the capital budget to develop Senate Committee Substitute bills.

**XI. Senate Action on Appropriations**

- A. Full Senate adopts Senate Committee Substitutes, amends Senate Committee Substitutes, or adopts Senate Substitute bills for appropriations on emergency and supplemental, operating, and capital budgets.
- B. The Senate returns the appropriations bills to the House of Representatives for acceptance or for the House to make a request for conference to settle differences.

**XII. Conference Committee(s) on Appropriations**

- A. Conference Committees, consisting of five (5) members from the House of Representatives and five (5) members from the Senate, meet to achieve compromises, settle differences and adopt Conference Committee Substitute appropriations bills.
- B. Conference Committee Substitute bills are then returned to the full House and Senate to be Truly Agreed To and Finally Passed.

**XIII. Governor’s Line-Item Veto**

- A. Truly Agreed To and Finally Passed appropriations bills are sent to the Governor for signature.
- B. Governor either signs an appropriations bill, vetoes the entire bill, or line-item vetoes part or all of sections or lines in the bill. The Governor must act before July 1 on the appropriations bills and on that date the appropriated moneys become available to be expended.

**XIV. Governor’s Control Over Expenditure Rates**

- A. Governor controls the rate of expenditure against appropriations through the allotment process.
- B. An initial reserve plan is the constitutionally required 3% withholding on appropriations to be expended upon approval of the Governor.
- C. Governor may further withhold funds to reduce expenditures below appropriations whenever actual revenues are less than estimates on which the appropriations are based.

**XV. Legislative Override of Governor's Veto**

- A. Legislature may override Governor's veto of a bill or line-item by a two-thirds majority in both the House and Senate during the following legislative veto session held in September.
- B. Process begins again.

# **Section III**

## **MISSOURI STATE FINANCES**

## BUDGET RESERVE FUND

**Legal Basis:** Article IV, Section 27 (a) of the Missouri Constitution

**Description:** The fund was authorized by constitutional amendment on the November 7, 2000 ballot. The amendment required the transfer of the fund balances from the Cash Operating Reserve Fund and the Budget Stabilization Fund to the newly created Budget Reserve Fund. The Budget Reserve Fund is exempt from the biennial transfer of the balance and earned interest to the General Revenue Fund.

**Purpose:** The fund can be used for cash flow insufficiencies or budget stabilization.

**Cash Flow Insufficiencies** – The Commissioner of Administration may transfer amounts from the Budget Reserve Fund to any state fund if the fund balance is insufficient to maintain appropriated levels. Any cash flow transfers made during the fiscal year must be repaid to the Budget Reserve Fund, with interest, on or before May 15<sup>th</sup> of the same fiscal year.

**Budget Stabilization** – If the Governor reduces a department's appropriation level due to a revenue shortfall, or if funds are required to assist the state due to a disaster, the Governor may request appropriations from the Budget Reserve Fund.

The General Assembly must approve the request with a two-thirds vote from both houses.

No more than one-half of the fund balance may be appropriated for this purpose at any one time.

A minimum of one-third of the amount appropriated must be repaid, with interest, in each of the three following fiscal years.

**Fund Balance Limits:** The fund balance is capped at 7.5% of net general revenue receipts, or 10% if approved by the General Assembly for increasing the fund balance.

Net general revenue collections are defined as "all revenue deposited into the General Revenue Fund less any refunds and revenues originally deposited into general revenue but designated by law for specific distribution or transfer to another state fund."

Excesses above the caps are transferred back to the General Revenue Fund. If the balance is less than 7.5% then the difference stands appropriated and transferred from the General Revenue Fund to the Budget Reserve Fund. Per the Constitution, such transfer must be made by July 15<sup>th</sup> of the next preceding fiscal year.

## CONSENSUS REVENUE ESTIMATE and RECEIPTS

### Fiscal Year 2016 through Fiscal Year 2019

The consensus revenue estimate calculated by the Office of Administration and the General Assembly attempts to provide an accurate revenue forecast for the upcoming fiscal year, based upon projections of both the national and state economic conditions and trends. The revenue estimate is one of the first areas that is analyzed before the state budget is formulated and is usually finalized in the December preceding the next fiscal year.

## STATE OF MISSOURI BOND INDEBTEDNESS

The General Assembly is authorized by constitutional and statutory provisions to authorize the issuance of debt for various purposes. The Board of Fund Commissioners and the Board of Public Buildings are responsible for managing the state's issuance of general obligation instruments and revenue bonds, respectively. In addition, the General Assembly has created several financing authorities responsible for raising capital via debt issuance for specific purposes.

### **General Obligation Bonds**

General obligation bonds are secured by a pledge of the full faith, credit and resources of the State. The principal and interest amounts are transferred one year in advance from the General Revenue Fund to the debt service funds from which principal and interest payments are made. Three types of general obligation bonds are currently authorized and outstanding.

#### **Water Pollution Control (WPC) Bonds**

The Board of Fund Commissioners is authorized by constitutional amendment to issue Water Pollution Control general obligation bonds. The constitutional limit on WPC bonds is \$725 million (Article III, § 37(b), 37(c), 37(e), Missouri Constitution). These bonds are issued, upon approval of the General Assembly, to provide funds for State use to protect the environment through the control of water pollution. The principal and interest on these bonds are paid from moneys transferred from the General Revenue Fund and the Water and Wastewater Loan Revolving Fund to the Water Pollution Control Bond and Interest Fund. The Board began issuing Water Pollution Control Bonds in 1972. As of July 1, 2018, the principal outstanding balance was \$53,470,000.

#### **Fourth State Building (FSB) Bonds**

The Board of Fund Commissioners is authorized by constitutional amendment to issue Fourth State Building general obligation bonds. The constitutional limit on FSB bonds is \$250 million (Article III, § 37(f), Missouri Constitution). These bonds are issued, upon approval of the General Assembly, to provide funds for improvements of buildings and property of higher education institutions, the Department of Corrections, and the Division of Youth Services. The principal and interest on these bonds are paid from moneys transferred from the General Revenue Fund to the Fourth State Building Bond and Interest Fund. The Board began issuing Fourth State Building Bonds in 1995. There is no remaining amount of authorization to be issued for the Fourth State Building Bonds. As of July 1, 2018, the principal outstanding balance was \$43,350,000.

#### **Stormwater Control (SWB) Bonds**

The Board of Fund Commissioners is authorized by constitutional amendment to issue Stormwater Control general obligation bonds. The constitutional limit on SWB bonds is \$200 million (Article III, § 37(h), Missouri Constitution). These bonds are issued, upon approval of the General Assembly, to provide funds for State use to protect the environment through the control of stormwater. The principal and interest on these bonds are paid from moneys transferred from the General Revenue Fund to the Stormwater Control Bond and Interest Fund. As of July 1, 2018, the principal outstanding balance was \$7,875,000.

## **Revenue Bonds**

Upon approval of the General Assembly, the Board of Public Buildings is authorized to issue revenue bonds for state building projects and commits State agencies to lease space in these buildings. The General Assembly appropriates to the Board, on behalf of the State agencies, amounts sufficient to pay the principal and interest, maintain certain required reserves and to pay the costs of operations. The total statutorily authorized issuance amount for the Board is \$1,545,000,000, of which \$600,000,000 is available for repairs and maintenance projects. Chapter 8, RSMo, limits revenue bond issuance by the Board of Public Buildings to \$1.545 billion. As of July 1, 2018, the principal outstanding balance was \$718,360,000.

## **Other Debt Issuances**

### **Regional Convention and Sports Complex Authority**

Section 67.650, RSMo was established to authorize each city not within a county and each first class county with a charter form of government which adjoins such city not within a county to create a "Regional Convention and Sports Complex Authority".

The Regional Convention and Sports Complex Authority issued \$132,910,000 of Convention and Sports Facility Project Bonds Series A 1991 dated August 15, 1991. These bonds are limited obligations of the Authority and do not constitute a pledge of the full faith and credit of the State. However, under a financing agreement dated August 1, 1991, the Office of Administration will request that the Governor's budget, as submitted to the General Assembly, include the State's financing amount of \$10,000,000 for principal and interest and \$2,000,000 for maintenance each year. In addition to the State's contribution, St. Louis County and the City of St. Louis each pay \$5,000,000 for principal and interest and \$1,000,000 for maintenance each year. Payments began in fiscal year 1992 and conclude in fiscal year 2022.

The Regional Convention and Sports Complex Authority issued \$121,705,000 of Convention and Sports Facility Project and Refunding Bonds Series A 1993 dated December 15, 1993 with interest rates ranging from 2.75% to 5.60%. The purpose was to refund the callable portion of the Series A 1991 outstanding Convention and Sports Facility Project Bonds and to pay the costs of additions and enhancements to the project. The outstanding principal amount at the time of refunding was \$130,280,000 and the portion refunded was \$101,410,000.

The Regional Convention and Sports Complex Authority issued \$116,030,000 of Convention and Sports Facility Project and Refunding Bonds Series A 2003 dated August 1, 2003 with interest rates ranging from 1.42% to 5.375%. The purpose was to refund in advance the Series A 1991 Convention and Sports Facility Project Bonds and Series A 1993 Convention and Sports Facility Project and Refunding Bonds and to pay the costs of additions and enhancements to the project. The outstanding principal at the time of refunding was \$2,845,000 Series A 1991 and \$113,170,000 Series A 1993.

The Regional Convention and Sports Complex Authority issued \$65,195,000 of Convention and Sports Facility Project and Refunding Bonds Series A 2013 dated August 20, 2013 with interest rates ranging from 2.00% to 5.00%. The purpose was to refund in advance the Series A 2003 Convention and Sports Facility Project Bonds. The outstanding principal at the time of refunding was \$64,385,000. As of July 1, 2018, the principal outstanding balance was \$35,345,000.

## **Kansas City & Jackson County Convention Center**

Section 67.641 RSMo establishes appropriations up to \$2,000,000 annually to be paid from the state general revenue fund to each convention and sports complex fund created pursuant to Section 67.639. In fiscal year 1991 the Kansas City Convention Center (Bartle Hall) began receiving \$2,000,000 annually from the State through fiscal year 2021. In fiscal year 1991 Jackson County Convention Center (Kauffman/Arrowhead Stadium) began receiving \$2,000,000. In fiscal year 1997 the amount was increased to \$3,000,000 and will continue through fiscal year 2021.

## **Health and Educational Facilities Authority – UMC Arena Bonds**

On November 1, 2001, the Missouri Health and Education Facilities Authority (MOHEFA) issued \$35,000,000 of Educational Facilities Revenue Bonds Series 2001 to finance the University of Missouri – Columbia (UMC) Arena Project. The State's debt service payments began in fiscal year 2005 when the first principal payment was due. Interest amounts due prior to fiscal year 2005 were paid from interest capitalized from the bond proceeds.

On November 17, 2011, the Missouri Health and Educational Facilities Authority (MOHEFA) issued \$20,125,000 of Educational Facilities Revenue Bonds Series 2011. The Refunding Educational Facilities Revenue bonds refunded \$22,770,000 of Educational Facilities Revenue Bonds Series 2001. As of July 1, 2018, the principal outstanding balance was \$9,145,000.

## **Refunding Certificates of Participation**

The State issued Refunding Certificates of Participation Series A 2011 dated June 7, 2011 for \$76,910,000. The Refunding Certificates of Participation refunded \$76,065,000 of the Refunding Certificates of Participation Series A 2005. The Refunding Certificates of Participation Series A 2005 refunded \$13,945,000 of Missouri Public Facilities Corporation Certificates of Participation (Acute Care Psychiatric Hospital Project) Series A 1994, \$13,400,000 of Missouri PRC Corporation Certificates of Participation (Psychiatric Rehabilitation Center Project) Series A 1995, \$9,915,000 of Northwest Missouri Public Facilities Corporation Certificates of Participation (Northwest Missouri Psychiatric Rehabilitation Center Project) Series B 1995, and \$83,480,000 of Missouri Public Facilities Corporation II Certificates of Participation (Bonne Terre Prison Project) Series A 1999.

The State's obligation under the lease does not constitute a general obligation or other indebtedness of the State. The certificates of participation represent proportionate ownership interests of the certificate holders in the lease agreement. The certificates do not constitute a pledge of the full faith and credit of the State. Payments under the lease agreement have been structured in amounts sufficient to pay principal and interest on the certificate, and are subject to annual appropriation by the State legislature. As of July 1, 2018, the principal outstanding balance was \$13,525,000.

## **Missouri Development Finance Board**

On November 30, 2005 the Missouri Development Finance Board issued Missouri Development Finance Board Leasehold Revenue Bonds Series 2005 in the amount of \$28,995,000. The Board issued the bonds to finance the purchase of three buildings in St. Louis (Florissant, St. Louis, and Jennings). The Board additionally issued \$9,865,000 of Leasehold Revenue Bonds Series 2006 on May 31, 2006 for the purchase of a building in St. Louis. The State has entered into a lease with the Board. On June 11, 2013, the Board issued Missouri Development Finance Board Leasehold Revenue Refunding Bonds Series A 2013 for \$21,820,000 and Series B 2013 for \$7,450,000 to refund \$20,805,000 of Missouri Development Finance Board Leasehold Revenue Bonds Series 2005 and \$7,100,000 of

Missouri Development Finance Board Leasehold Revenue Bonds Series 2006, respectively. As of July 1, 2018, the principal outstanding balance was \$25,775,000.

The Missouri Development issued \$92,660,000 and \$97,225,000 of Missouri Development Finance Board State of Missouri Annual Appropriation Bonds Series 2014 and Series 2016 dated December 10, 2014 and December 15, 2016, respectively. These bonds were issued to finance the Fulton State Hospital project. The bonds are special, limited obligations of the Board and do not constitute a pledge of the full faith and credit of the State. As of July 1, 2018, the principal outstanding balance was \$180,510,000.

The Missouri Development Finance Board issued \$33,800,000 of Missouri Development Finance Board State of Missouri Annual Appropriation Bonds Series A 2016 dated March 11, 2016. These bonds were issued to finance the State Historical Society project. The bonds are special, limited obligations of the Board and do not constitute a pledge of the full faith and credit of the State. As of July 1, 2018, the principal outstanding balance was \$31,405,000.

### **Guaranteed Energy Savings Contracts**

The State of Missouri, Office of Administration, Division of Facilities Management Design and Construction (FMDC) has entered into various Guaranteed Energy Saving Contract (ESCO) leases as part of a master lease agreement. RSMo 8.235.4 allows the Office of Administration to use the master lease for guaranteed energy cost savings contracts. FMDC has utilized this authority to produce energy savings, reduce consumption, reduce pollution, and increase productivity at facilities around the state. These projects have been financed for a period of 15 years at fixed interest rates ranging between 2.20% and 4.03%. The state issued financing in the amount of \$69,643,282 with a final maturity date of November 1, 2023.

The State refinanced 20 of the outstanding ESCO leases on December 30, 2011. The refinancing lowered the interest rates on these leases from 2.74% - 3.82% to 2.3%. As of July 1, 2018, the outstanding balance was \$14,874,821.

### **Unified Communication Contract**

The State of Missouri, Office of Administration, Information Technology Services Division (ITSD) has entered into a Unified Communication lease with Key Government Finance. ITSD has utilized this lease to purchase, upgrade, and replacement of the States' Telecommunication system. This lease is being financed in multiple phases, of which, each phase will not exceed 7 years at an interest rate of 2.99%. Phase I was refinanced as of February 10, 2012. The refinancing lowered the interest rate to 1.14%. Phase II was refinanced as of September 28, 2012. The refinancing lowered the interest rate to 0.99%. Phase III was financed as of June 28, 2013 with an interest rate of 0.99%. As of July 1, 2018, the outstanding balance was \$0.

### **Missouri Highways and Transportation Commission**

## GAMING & GAMING COMMISSION REVENUE

Senate Bill 10 & 11 (86<sup>th</sup> General Assembly, 1<sup>st</sup> Regular Session, 1994) created the Missouri Gaming Commission, which became responsible for the licensing and regulation of excursion gambling boats throughout the state. After June 30, 1994, this act also provided for the transfer of responsibilities of licensing and regulation of bingo activities to the Gaming Commission.

Revenues generated from the gaming industry provide for the operation of the Missouri Gaming Commission (§ 313.835 RSMo), as well as providing a portion of the funding for education throughout the state (§ 313.835 RSMo; Article IV, Section 15, Missouri Constitution).

### Gaming Revenue in Missouri

The following summarizes how the funding mechanism allocates dollars to both the operation of the Gaming Commission and to the State Education Fund.

- There is a \$2 boarding fee, paid either by the gambler or the casino, of which \$1 supports the operation of the Gaming Commission and the other \$1 goes to the local government.
- 79% of the gamblers' losses is allocated to the casino, while 2.1% is allocated to the local government. The remaining 18.9% (Gaming Tax) is allocated to the Classroom Trust Fund for education.

### Contribution of Gaming Proceeds (18.9% tax) to Education

	<b>FY 2017</b>	<b>FY 2018</b>	<b>FY 2019 (estimated)</b>

The remaining items: Juvenile Court Diversion (HB 11) and Administrative Expenses (HB 8) are appropriated dollar amounts.

NOTE: The passage of HB 1731 (2012) changed the appropriation amount for the Veteran's Commission CI Trust Fund and Early Childhood Development Education and Care Fund (not shown).

## FISCAL YEAR 2018 LOTTERY SALES

The Missouri State Lottery was created by voter approval of Constitutional Amendment No. 5 on November 6, 1984. Section 39(b) of Article III of the Missouri Constitution requires that a minimum of 45% of money received from the sale of Missouri state lottery tickets shall be awarded as prizes. The Constitution was further amended on August 4, 1992 to dedicate net lottery proceeds solely to public institutions of elementary, secondary, and higher education.

### FY 2018 Lottery Sales: \$1.405 billion (unaudited)

## TOBACCO SETTLEMENT PROCEEDS

In 1997, the state of Missouri sued 18 tobacco companies because of violations of the Missouri Merchandising Act and antitrust laws, as well as for reimbursement for health care costs and a variety of other claims. In November 1998, Missouri entered into the Master Settlement Agreement ("MSA") in resolution of the litigation in the Circuit Court of the City of St. Louis. Missouri agreed to dismiss all claims in exchange for a series of monetary payments, continued for at least 25 years, and non-monetary benefits, such as a prohibition against certain tobacco advertising. The court approved the settlement on March 5, 1999. Several parties, including public hospitals and other political subdivisions of the state, appealed the MSA and the denial of motions to intervene in the case at the trial level. The Missouri Court of Appeals, Eastern District, upheld the decision of the trial court to approve the settlement, and the Missouri Supreme Court accepted the transfer of the appeal. The Missouri Supreme Court issued its opinion approving the settlement on December 12, 2000.

### Settlement Proceeds

The MSA provides that tobacco companies will make payments into an escrow account from which moneys will be disbursed to the state. Missouri's share is estimated at \$3.6 billion over 25 years. This estimate includes adjustments, reductions and offsets, which are calculated on a yearly basis. A schedule of payments and the estimated revenues are shown below.

The payment received in FY 2014 was approximately \$70 million less than anticipated due to an arbitration ruling from a 3-judge panel in September 2013 regarding the enforcement of tobacco laws. In May 2014, St. Louis Circuit Court Judge Jimmie Edwards issued a ruling that partially vacated that ruling. His ruling stated that an arbitration panel wrongly calculated the amount of settlement payments Missouri should lose for failure to enforce tobacco laws.

Because of the ruling by Judge Edwards, it was anticipated Missouri would receive approximately \$50 million of the \$70 million as part of the arbitration ruling. The additional \$50 million was budgeted within the Medicaid Pharmacy section in House Bill 11 in FY 2015. The state did not receive the additional \$50 million in FY 2015 because the Court of Appeals overturned Edwards' decision. The

case was then transferred to the Supreme Court. Then in February 2017, the Missouri Supreme Court ruled the state could recoup around \$50 million in lost tobacco settlement money that had been previously withheld. These funds were paid to the state in April 2017.

### **Account Structure**

The Governor issued an Executive Order (01-05) on February 12, 2001, creating a Healthy Families Trust Fund within the state treasury. The Executive Order created five sub-accounts within the Fund: Early Childhood Care and Education Account; Life Sciences Research Account; Tobacco Prevention, Education and Cessation Account; Health Care Treatment and Access Account; and Senior Catastrophic Prescription Drug Account. The Executive Order did not appropriate any funds or dictate any percentages for funding allocations to any account. It directed the Office of Administration to receive and expend tobacco settlement money in accordance with the budget submitted to the General Assembly as amended and truly agreed to and finally passed bills signed by the Governor.

Executive Order 06-22 issued on June 22, 2006 abolished the five sub-accounts and established that the Healthy Families Trust Fund would expend all payments as appropriated in the budget. The rationale behind the change was to eliminate administrative overhead and double exposure of the funds to the state's cost allocation plan. According to the Office of Administration, this change has no budgetary impact.

### **FY 2002 Expenditures**

Due to budget shortfalls that occurred during Fiscal Year 2002, much of the tobacco settlement monies were withheld from the programs they were appropriated for and subsequently transferred to General Revenue.

## **LEGISLATION**

## **ESTIMATED FISCAL IMPACT OF LEGISLATION FOR FY 2019 – FY 2021**

Sixty-One Senate Bills and Sixty-Three House Bills were Truly Agreed To and Finally Passed (TAFP) during the 99th General Assembly, 2nd Regular Session (2018). The Governor vetoed one Senate Bill and one House Bill. The number of bills passed by the General Assembly does not include the appropriation bills or any resolutions.

Presented on the following pages is a summary of the estimated fiscal impact over the next three years (2019-2021) of the legislation signed by the Governor. Numbers shown in parentheses, such as (\$100,000), represent a new cost to the respective fund. Positive numbers, such as \$100,000, indicate a savings to the respective fund.

The information given on the following pages is based on information taken from the fiscal notes prepared for each bill by the Oversight Division, Committee on Legislative Research. Numbers do not include the appropriation bills. When the fiscal impact of a bill included a range, the higher figure for costs and/or losses and the lower figure for income were used in calculating the fiscal impact. Actual costs may be higher or lower, depending on the actual appropriations. The totals listed for House and Senate bills do not include the unknown figures.

Detailed information on individual bills, including the fiscal note, can be obtained by contacting the Senate Appropriations Staff or accessing the Senate web page at [www.senate.mo.gov](http://www.senate.mo.gov) and the House web page at [www.house.mo.gov](http://www.house.mo.gov).

## **HOUSE BILL 2540 – INDIVIDUAL INCOME TAXATION**

House Bill (HB) 2540 was Truly Agreed and Finally Passed by the General Assembly on May 17, 2018, and delivered to the Governor on May 30, 2018. The Governor signed HB 2540 on July 12, 2018.

### **INCOME TAX**

Currently, the law provides for a reduction in the top rate of income tax over a period of years from 6% to 5.5%, with each cut becoming effective if net general revenue collections meet a certain trigger. In addition to such reductions, beginning in the calendar year 2019, HB 2540 provides that the top rate of tax shall be reduced by 0.4%. The act also creates a definition for "net general revenue collected," which includes all revenue deposited into the General Revenue Fund, less refunds and revenues originally deposited into the General Revenue Fund but designated by law for a specific distribution or transfer to another state fund.

### **BUSINESS PASS-THROUGH INCOME DEDUCTION**

Currently, a pass-through entity can deduct 5% from its 2017 Missouri taxable income. The amount of the deduction will increase 5% each year if certain net general revenue limits are met, up to a maximum 25% deduction. HB 2540 changes the maximum deduction from 25% to 20%.

### **PERSONAL & DEPENDENCY EXEMPTIONS**

Currently, an individual can deduct \$2,100 as a personal exemption, \$2,100 for a spouse, and \$1,200 for each dependent. HB 2540 provides that Missouri personal and dependency exemptions are not allowed if the federal exemption amount is zero.

### **FEDERAL TAX DEDUCTION**

Currently, an individual can deduct his or her federal income tax liability up to \$5,000 or if a combined return, up to \$10,000. Beginning January 1, 2019, HB 2540 phases out this deduction for individuals based on Missouri adjusted gross income limits. The deduction is allowed at 35% for incomes of \$25,000 or less; 25% for incomes of \$25,001 to \$50,000; 15% for incomes of \$50,001 to \$100,000; 5% for incomes of \$100,001 to \$125,000; and eliminated for incomes over \$125,000. The provisions for HB 2540 shall become effective on January 1, 2019.

## **SENATE BILL 775 – HEALTHCARE PROVIDER REIMBURSEMENT ALLOWANCE TAXES**

Senate Bill (SB) 775 was Truly Agreed and Finally Passed by the General Assembly on May 17, 2018, and delivered to the Governor on May 30, 2018. The Governor signed SB 775 on June 1, 2018.

SB 775 extends the sunsets from September 30, 2018, to September 30, 2019, for the Ground Ambulance, Nursing Facility, Medicaid Managed Care Organization, Hospital, Pharmacy, and Intermediate Care Facility for the Intellectually Disabled Reimbursement Allowance Taxes.

Additionally, this act repeals existing provisions of law regarding hospital reimbursement allowance calculations and alternative reimbursements for outpatient services. Instead, each state fiscal year, the amount of federal reimbursement allowance levied under the Hospital Reimbursement Allowance Tax shall not exceed 45% of the total payments to hospitals from the Federal Reimbursement Allowance Fund and associated federal match, including payments made to hospitals from state-

contracted managed care organizations that are attributable to the reimbursement fund and associated federal match. By October 1 of each subsequent state fiscal year, the Department of Social Services shall report this calculation and the underlying data to the House budget committee and the Senate appropriations committee as specified in the act. Additionally, the Department shall disclose the amount of hospital payments made by the Department and the amount of hospital payments made by each of the managed care plans as specified in the act.

## **SENATE BILL 884 – TAXATION**

Senate Bill (SB) 884 was Truly Agreed and Finally Passed by the General Assembly on May 18, 2018, and delivered to the Governor on May 30, 2018. The Governor signed SB 884 on June 1, 2018.

### **RETAIL SALES LICENSES**

Current law requires the Director of Revenue to require all applicants for a retail sales license and all current licensees in default in filing a return and paying taxes due to file a bond with the Director. SB 884 allows, rather than requires, the Director to request such a bond. The act also removes the ability of the Director to request such a bond from a retail sales license applicant.

### **INDIVIDUAL INCOME TAXES**

SB 884 provides that when an income bracket is eliminated from the tax table, the top remaining tax rate shall apply to all income in excess of the second highest remaining income bracket.

This act also creates a definition for "net general revenue collected", which includes all revenue deposited into the General Revenue Fund, less refunds and revenues originally deposited into the general revenue fund but designated by law for a specific distribution or transfer to another state fund.

### **CORPORATE INCOME TAXES**

For all tax years beginning on or after January 1, 2020, SB 884 reduces the corporate income tax rate from 6.25% to 4.0%.

This act removes the requirement that an affiliated group of corporations has fifty percent or more of its income derived from sources within this state in order to file a consolidated return, and eliminates transactions between affiliated members of the group from such consolidated return.

For all tax years beginning on or after January 1, 2020, SB 884 modifies the Multistate Tax Compact by requiring corporations subject to income tax in this state to apportion and allocate income according to the income tax provisions provided in Chapter 143, and disallows the three-factor apportionment option available in the Multistate Tax Compact.

For all tax years beginning on or after January 1, 2020, SB 884 modifies the law relating to the allocation and apportionment of corporate income by requiring corporations to determine their income derived from sources within this state according to the provisions of this act.

### **ALLOCABLE INCOME**

Net rents and royalties from real property located in the state, and capital gains from the sale of such property, is allocable to the state. Net rents and royalties from tangible personal property are allocable to the state to the extent that the property is used in this state, or in their entirety if the corporation's commercial domicile is in this state and is not organized or taxable by the state in which the property is utilized, as described in the act. Capital gains from the sale of tangible personal

property is allocable to this state if the property had a situs in the state at the time of sale, or if the corporation's commercial domicile is in this state and is not organized or taxable by the state in which the property had a situs, as described in the act. Interest and dividends are allocable to this state if the corporation's commercial domicile is in this state. Patent and copyright royalties are allocable to this state to the extent that the patent or copyright is utilized in this state, or to the extent that the patent or copyright is utilized in a state in which the corporation is not taxable and the corporation's commercial domicile is in this state.

#### APPORTIONABLE INCOME

All apportionable income shall be apportioned to this state by dividing the total receipts of the corporation in this state during the tax period by the total receipts of the corporation everywhere during the tax period, and multiplying such result by the net income.

Receipts from the sale of tangible personal property shall be considered in this state if the purchaser, as described in the act, receives the property in this state. Receipts from all other sales shall be considered in this state if the corporation's market for such sales is in this state, as described in the act.

In the case of certain industries where unusual factual situations produce inequitable results under the apportionment and allocation provisions of this act, the Director of Revenue shall promulgate rules for determining the apportionment and allocation factors for each such industry. In such a case, a corporation may petition the Director of Revenue, as described in the act.

This act provides that the method of allocation and apportionment elected by a corporation shall expire after five years, or whenever the Director of Revenue finds and notifies such corporation that such method does not show the income applicable to this state, whichever occurs first. After such expiration or revocation, the corporation may elect to use the same or a different method. Failure to make such an election shall constitute an election to comply with the allocation and apportionment provisions provided by the act.

## CALCULATION OF TOTAL STATE REVENUE

In November, 1980, Missouri citizens approved an amendment to Article X of the Missouri Constitution limiting the amount of tax revenue the State may collect in any fiscal year. The amendment, referred to as the Hancock Amendment, established a ratio between personal income and total state revenues for Fiscal Year (FY) 1981 and used that ratio to set the Total State Revenue (TSR) limit for subsequent years.

The ratio is .056395. For FY 2019, this ratio is applied to the United States Department of Commerce's calculation of Missouri personal income for calendar year 2017 to establish the FY 2019 revenue limit.

The Hancock Amendment defines total state revenues as "all general and special revenues, license and fees, excluding federal funds as defined in the budget message of the Governor for FY 1980-1981." Because the limit is actually on the General Assembly's power of taxation, revenues generated by taxes approved by voters after the adoption of the amendment are excluded from the calculation of TSR. Revenues generated by any agency acting on voter approval, i.e., the Missouri Lottery, are excluded. Also, the calculation excludes refunds of any tax included in TSR.

If in any fiscal year TSR exceeds the limit by 1% or more, the amount of the excess revenue is to be refunded pro rata based on the taxpayer income tax liability reported on the annual Missouri income tax returns filed in the following year. If the limit is exceeded by an amount of less than 1%, the excess amount is transferred to the General Revenue Fund.

In any fiscal year, the revenue limit may be exceeded if: the Governor asks the General Assembly to declare an emergency and the nature of the emergency and its cost to the state are clearly specified by the Governor; and the General Assembly declares an emergency by a two-thirds majority vote. The emergency must be declared prior to the expenditure of any "excess" revenue. Refunds resulting from provisions of the amendment cannot be the subject of any request to declare an emergency.

The Hancock Amendment includes further provisions limiting tax increases of political subdivisions and limits state government's flexibility to reduce, support, or impose new responsibilities on to local governments. This material is beyond the scope of this text. Interested persons should refer to the Missouri Constitution, Article X, §§ 21 and 22.

The Tobacco Master Settlement Agreement Proceeds have been determined by the Office of Administration – Division of Budget and Planning to be recovery costs for Medicaid expenses related to smoking and, therefore, exempted from Total State Revenue.

Article X, Section 18(e) states that in any one fiscal year the general assembly shall not increase taxes or fees by more than \$50 million adjusted for growth in Missouri personal income or 1% of Total State Revenue, whichever is less. For FY 2018, the adjusted limit was approximately \$102.9 million. If the General Assembly increased taxes or fees by more than the above limit, the largest tax or fee increase must go to a vote of the people.

It is unlikely that the Hancock Amendment will be triggered in the foreseeable future. The state is approximately \$4.2 billion below the refund threshold, and Article X, Section 18(e) of the Missouri Constitution mandates that the people must vote on any major tax increase, so therefore it would be excluded from total state revenue.

## THE FOUNDATION FORMULA

Fiscal Year (FY) 2019 represents the thirteenth year of state appropriations to school districts based on the current foundation formula passed in the 2005 session (SB 287) and is the seventh year the formula is “fully phased-in.” However, FY 2019 is only the second year since FY 2009 that the statutory calculation is projected to be “fully funded.” The FY 2019 appropriation for the formula is currently projected to be “fully funded,” depending on Gaming and Lottery collections and final student attendance numbers. Prior to HB 1689 (2014), the statute contained no specific direction to the Department of Elementary and Secondary Education regarding how to manage less than full funding of the formula. HB 1689 (2014) states that in any year in which the appropriation is not sufficient to fully fund the formula, then the State Adequacy Target shall be adjusted downward to match available appropriations and hold harmless districts shall not receive less than their calculated hold harmless amount. FY 2016 was the first year this change took effect.

The current foundation formula is a student-focused, successful-school model based on characteristics of those districts meeting all performance standards reflected in the Annual Performance Report (“performance districts”). Based on those districts, it establishes a “state adequacy target” (\$6,308 for FY 2019) to ensure that all districts with a tax levy of at least the performance levy (\$3.43) have a minimum amount for each student. The state adequacy target will be recalculated every two years using the most current list of performance districts, however by statute the state adequacy target cannot decrease.

- Formula payments are calculated on a per-student basis. The formula also provides additional funding through student weighting for districts whose percentage of free or reduced lunch, special education, or English proficiency students exceed the respective percentages in the performance districts. The formula does not provide additional weight for summer school attendance.
- The state adequacy target includes expenditures from the following categories of state funding. Therefore these items will no longer be funded separately:
  - Line 14 of current formula (“At-risk” programs)
  - Exceptional pupil aid (Special Education categorical)
  - Gifted education (Gifted categorical)
  - Remedial Reading categorical
  - Fair Share fund
  - Free Textbook fund
- The local revenue deduction utilized in the formula is calculated by taking \$3.43 times the 2004 assessed valuation in the school district, regardless of the district’s actual levy. The \$3.43 amount is called the performance levy. The district’s local effort deduction is frozen so that growth in local collections will be retained by the district without offsetting state aid payments.
- A dollar value modifier (DVM) is used to recognize increased operating costs in some districts, primarily in metropolitan regions.
- The formula is phased-in over seven years beginning in FY 2007. Despite the fact that the formula has not fully-funded, the statutory phase-in schedule has completed. This has resulted in a formula that is fully phased-in “on paper,” but was not funded at the fully phased-in amount for fiscal years 2010 thru 2017.

- Districts are guaranteed to receive a minimum state funding amount per student - the amount received per student in FY 2006. This amount will be adjusted upward for districts with a DVM greater than 1.0.
- A "Small Schools Fund" is established to distribute an additional \$15 million annually among districts with an Average Daily Attendance (ADA) of 350 or less. Ten million of this is to be distributed strictly on a per-ADA basis, with the other five million being distributed on a weighted basis to those small districts with levies greater than the \$3.43 performance levy.
- Revenues from gaming will be accounted for separately through the Classroom Trust Fund, also established by the act. Districts are given nearly unlimited flexibility in using these funds.

## HIGHER EDUCATION PERFORMANCE FUNDING MODEL

In 2011, the Commissioner of the Missouri Department of Higher Education established a Higher Education Performance Funding Taskforce to develop a performance funding model for Missouri's higher education institutions. In 2012, the Coordinating Board for Higher Education approved the model (HEF II) developed by that taskforce.

The HEF II model uses FY2013 as the baseline year for data collection and comparisons. Each sector developed four (4) sector performance measures that each institution in the sector would be evaluated on. Each institution then selected an institution specific measure for a total of five (5) performance measures. Successful achievement of a performance measure is defined for each institution individually as improvement over that institution's performance from the previous year, or, when applicable, maintenance of a high level of performance in relation to a previously established and externally validated threshold. The measures encompass student success and progress, degree completion and professional certification, financial responsibility, and efficiency.

The model distributes new or increased funds only. Essentially any new funding for the state's higher education institutions is allocated on a "percent-up/percent-down" methodology, meaning all institutional allocations are based on the same percentage increase. An institution "earns" its allocation based on the number of its five performance targets met (each target represents "earning" 20% of their allocated increase).

In the 2014 legislative session, the General Assembly passed SB 492, which codified the HEF II model with a few changes. The first change was the addition of a sixth measure to evaluate institutions on the basis of graduate job placement. The use of this job placement measure will only occur in years in which the state's unemployment rate has not increased. The second change was the inclusion of an additional weighting of 0.5 for the Science, Technology, Engineering and Mathematics (STEM) fields for any measure that uses number of graduates or numbers of certificates issued. And the third change would distribute ten percent (10%) of any new funds appropriated for the institutions based upon equity within each sector. Each sector has derived their own individual equity calculation.

FY 2019 (along with FY 2018) have seen no state appropriations through this model, in fact state appropriations for higher education have been reduced from the previous years' level.

## **CAP ON HIGHWAY FUND APPROPRIATIONS TO NON-HIGHWAY AGENCIES**

Legislation (Senate Bills 135 & 63) authorizing a 4-cent motor fuel tax increase effective July 1, 1987, established a cap on expenditures from the Highway Fund by other non-highway agencies (\$226.200 (3) RSMo). The cap was set at the Fiscal Year 1987 expenditure level and was approximately \$119.6 million. The bill required that when expenditures from the Highway Fund exceeded the cap, the fund must be reimbursed from General Revenue the next fiscal year.

The motor fuel tax increased to six cents in 1992 with the passage of House Bill 1247, in which the fixed ceiling of \$119.6 million was changed to a flexible ceiling (\$142.372 RSMo). Therefore, the growth in funds allocated to non-highway agencies could increase by the same percentage as the overall increase in state highway revenue sources.

During the 2000 legislative session, the passage of House Bill 1742, re-established a fixed cap (\$226.200 RSMo). This action will require the reimbursement of General Revenue funds to the Highway Fund when expenditures exceed the FY 2001 level of expenditures.

During the 2002 legislative session, the passage of House Bill 1196 provides for the removal of the cap beginning in Fiscal Year 2004 for the Mo. State Highway Patrol for enforcement related activities, and actual costs incurred by the Office of Administration for or on behalf of the Patrol and employees within the Department of Transportation. In addition, beginning in Fiscal Year 2008, any activities of the Patrol that are not related to the enforcement of laws pertaining to motor vehicle and usage of the highways shall be supported with General Revenue, or other applicable funding sources. This legislation also maintains a cap, which is set at the Fiscal Year 2001 level for the Department of Revenue, and other non-highway related agencies that are currently authorized to receive funding support from the State Highways and Transportation Department Fund.

The Department of Public Safety and Department of Revenue utilize a significant portion of Highway Fund revenue allocated for non-highway related purposes. The Department of Public Safety is compensated for patrolling the state's highways. Likewise, the Department of Revenue is compensated for implementing state motor vehicle and driver statutes. Other agencies receive Highway Fund revenue for work that relates to the state's highway system.

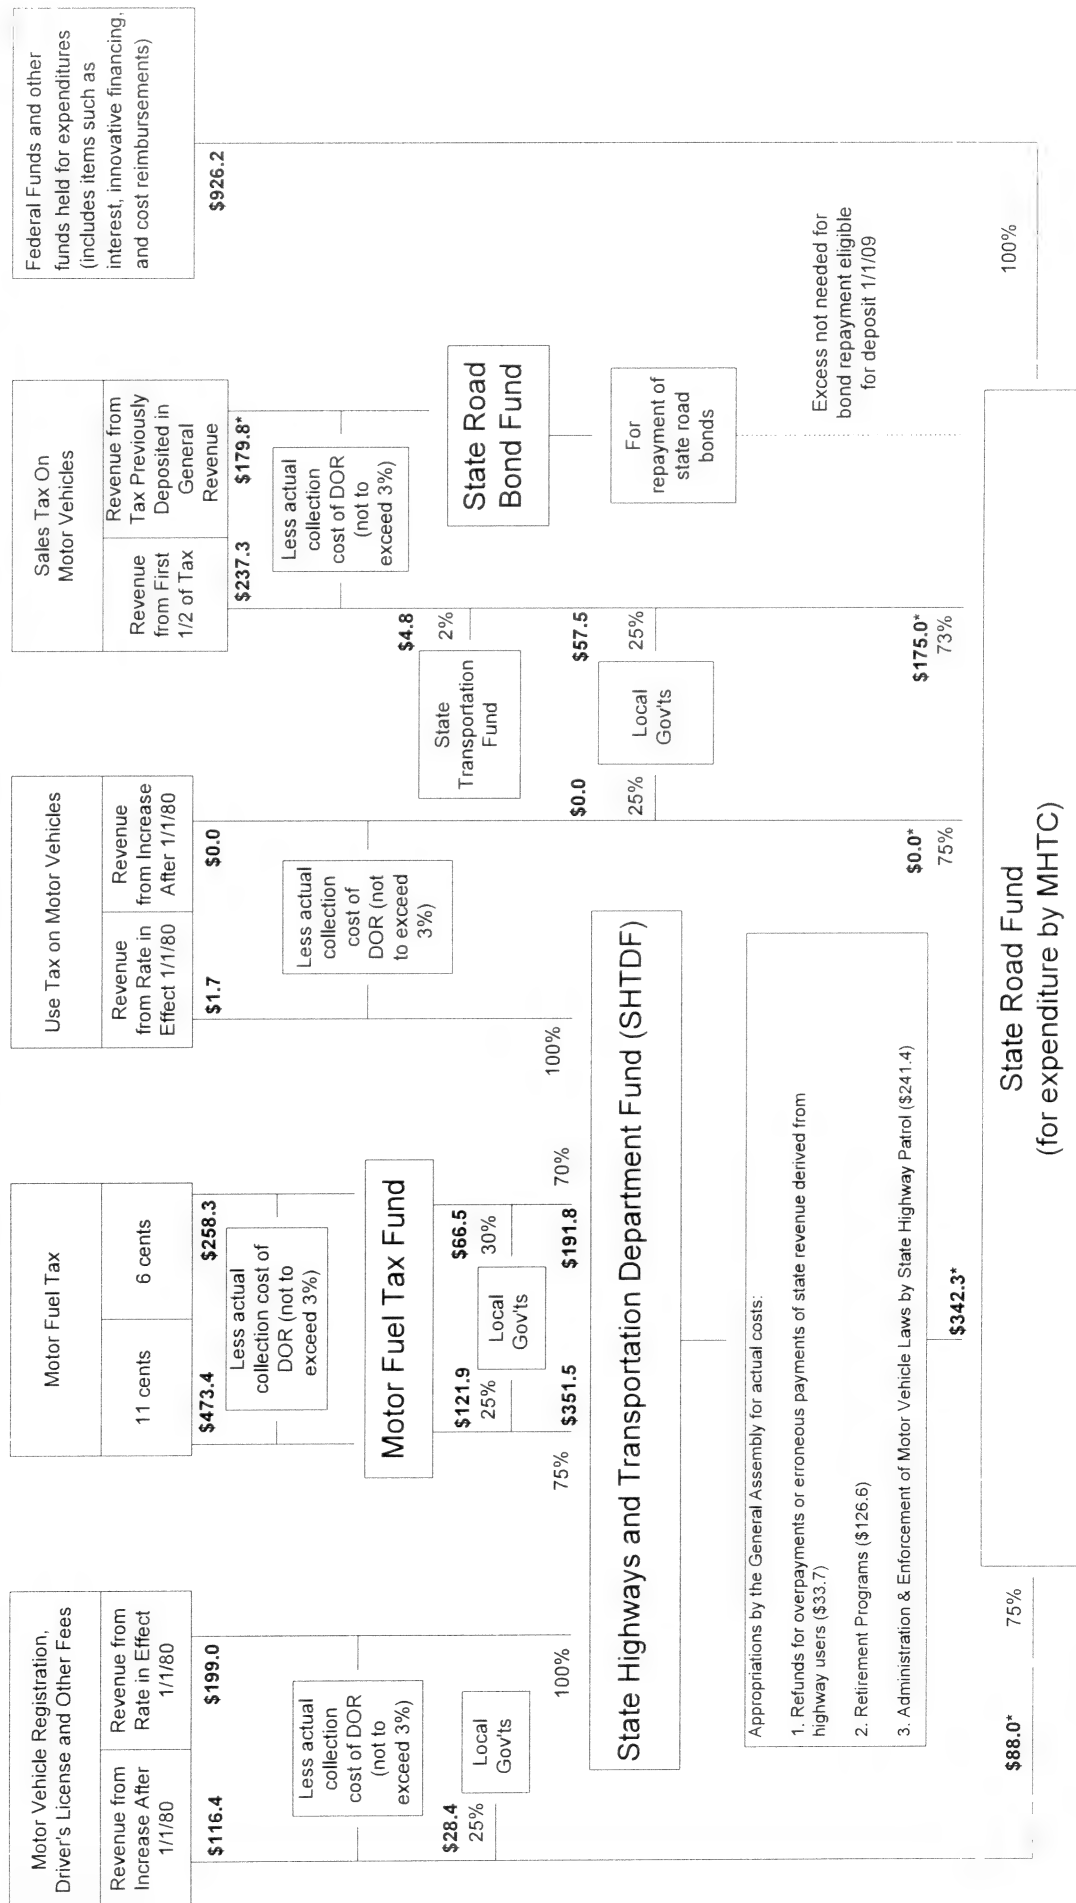

In 2004 Article IV, Sections 30(a), 30(b), 30(c), and 30(d) were amended such that:

- Cap the Department of Revenue's cost of collection at actual cost not to exceed 3% of the amount of highway funds collected.
- Cap the Highway Patrol's use of highway funds to actual costs of administering and enforcing any state motor vehicle laws and traffic regulations.
- Redirects the 50% of motor vehicle sales tax that goes to general revenue to the State Road Bond Fund over a four-year period beginning July 1, 2005.

## STATE EMPLOYEE PAY PLAN HISTORY

### FISCAL YEAR 1980 – FISCAL YEAR 2019

The pay plan is created by the Personnel Advisory Board (PAB) and reviewed by the Ad Hoc Task Force on Total Compensation. The task force recommendations are integrated into a final plan the PAB submits to the Governor's office and to Budget and Planning. The Governor makes a final recommendation to be reviewed by the legislature. Note: The Missouri Department of Transportation and Missouri Department of Conservation may implement pay plans contrary to the statewide pay plan.
